20 November 2025

Dear Dr Expert

Margaret Ashworth v Brookvale Surgery: supplementary instructions

1. Further to our letter of 9 October 2025, we should be grateful if you would also answer the following question:

(e) If Mrs Ashworth had been examined on 15 May 2024, what findings would a reasonably competent general practitioner have expected to record?

2. All other instructions are unchanged.

Yours sincerely

R. Tennant, Partner, Harland & Price LLP

Synthetic test record - invented patient - not real clinical data
